Question3: Write a program to compare two numbers and print which one is greater or if they are equal.

```cpp
#include <iostream>

using namespace std;

int main() {

    int num1, num2;

    cout << "Enter first number: ";

    cin >> num1;

    cout << "Enter second number: ";

    cin >> num2;

    if (num1 > num2) {

        cout << num1 << " is greater.";

    } else if (num1 < num2) {

        cout << num2 << " is greater.";

    } else {

        cout << "Both numbers are equal.";

    }

    return 0;

}
```
